## The Most International City of Korea, Incheon!

Incheon, a tourist destination that maximizes its geographical advantages, is a place where both inland and coastal tourism is well developed. As it is a city where exports and imports are made with many countries from the past to the present, it is a city where the cultures of various countries are harmonized together.

One of the city's wonderful landmarks is Songdo Tri-bowl. Famous for its impressive night views of Songdo, Tri-Bowl is a multi-complex culture and arts center built to seem as if it is floating on water. Its unique architecture of three bowl-shaped buildings floating on water symbolizes Incheon, a city in harmony with the sky, ocean, and earth.

In addition, we hope you have a great time exploring Incheon's beautiful places such as Songdo Convensia, Incheon Urban History Museum, Songdo Canal Walk, and Songdo Central Park. We look forward to welcoming you in Incheon.
